## EXPORT-IMPORT BANK OF THE UNITED STATES

### Intent to Conduct a Detailed Economic Impact Analysis

This notice is to inform the public that the Export-Import Bank of the United States has received an application for a loan guarantee to support the export of U.S.-manufactured Boeing 787 wide-body passenger aircraft to an airline in China, which will provide passenger services. The specific amount of the loan guarantee, the value of the transaction, and the amount of new foreign production capacity are not included here because they are proprietary information. However, the total value of the transaction is in excess of \$200 million and the amount of increased wide-body seat capacity resulting from these aircraft and possibly other U.S.-manufactured wide-body passenger aircraft could be 1% or more of comparable wide-body seat capacity within the U.S. airline industry. The aircraft in this transaction could enable passenger route service within China and from China to various regional and international destinations, potentially including the United States.

Interested parties may submit comments on this transaction by e-mail to [economic.impact@exim.gov](mailto:economic.impact@exim.gov) or by mail to 811 Vermont Avenue, N.W., Room 442, Washington, DC 20571, within 14 days of the date this notice appears in the Federal Register.

James Cruse

Senior Vice President, Policy and Planning
